

Sergey Legan
web and GUI designer

my works
www.s304.com

Experience

Nov. 2009 — Dec. 2010

Ballisticka, *art-director*. Professional duties: art-direction, conducting talks, work presentation as well as websites and identity design.

I've done projects for:

Sony Music Entertainment Russia (website for Denis Matsuev, one of the most sought-after pianists);
Frigate Ecojet (branding for the new Russian aircraft).

I've created GUI for:

Agent.ru (Online airlines booking system).

Sept. 2003 — Nov. 2009

Actis / Actis Wunderman, *web designer*.

Starting 2008 — Senior web designer for all web projects for Nokia in East hub (21 country).

Professional duties: design team management (2-3 designers, illustrator, flash-animator), websites and GUI design.

I've created GUI for:

Lexus & Toyota (extranet system for promotion activity management);
Beeline (motivation system and system for administration of staff trainings);
Russian Standard (extranet system for promotion activity management);
SAB Miller (wholesale purchases management system);
etc.

Microsoft

I've done websites for:

- **Microsoft** (promo sites);
- **Raiffeisen** (website for stock analytics);
- **Beeline** — Russian telecommunications operator (took part in creating main website for the company — more than 150 unique templates, intranet sites, posters, icons);
- **Nokia** (promo sites for new products and online shop for mobile applications. All works based on global guidelines);
- **Kent** (social network);
- **BMW** (BMW Financial Service website);
- **MTV** (design and animation for mtv.ru);
- **GE** (more than 60 web templates for Russian branch of GE Money Bank);
- **LG Hi-Macs** (website);
- **HP** (promo site "HP 40 years in Russia");
- **MTI** — Russian telecommunications operator (website);
- **NTV+** (online shop);
- etc. More than 160 projects.

NOKIA

Sept. 2000 — Sept. 2003

Red Graphic Systems, *web designer*.

Professional duties: creating banners, GUI and websites design.

In 2001 I've created information architecture and design for banner exchange service «**Krasnaya bannernaya**» (www.red.by). During the year it kept leading position in Belarus.

Education

2008

Aaron Marcus workshop (2 days)
by Microsoft / Careerlab.
Certificate

2008

Adobe After Effects course (one week)
by Realtime school.
Certificate

1996 — 2001

State University of Informatics
and Radioelectronics, Minsk, BY, Faculty
of Information Technologies and Control.
Diploma in Automated Management Systems
Engineering.

*Technical background and diploma of computer
science master's degree helps me to deal with complex
system of UI applications and better understand
specifics of interaction between user and graphic
interface.*

Personality

I like to create websites that are smart,
useful and fluid, websites people will enjoy.
I'd like to make design, pleasant to deal with,
with information easy to find and friendly UI.

I can participate in project from sketch
concept to all unique pages designs. In projects
that I've made, quantity of templates reached
70 drafts.

I can precisely estimate working hours
based on project brief and my work experience.
And I meet the deadlines. Always.
